PETITION

To the Honorable Governor Eric Greitens, we the following, the Homeless Men, Women and children in the City of Saint Louis, request your assistance in a provision of a State building for New Life Evangelistic Center to use for the purpose of establishing an emergency shelter.

Prior to April 2 we stayed at New Life Evangelistic Center at 1411 Locust Street in Saint Louis. In this building we received emergency shelter, along with food, clothing, care kits, training opportunities, bus tickets, prescription assistance and much more.

After the city of Saint Louis ordered New Life Evangelistic Center to discontinue the services provided at 1411 Locust Street, those of us homeless men were only given a warehouse to sleep in with NO indoor plumbing or air conditioning. The Homeless Women and children were given a chance to sleep in a recreation center or the streets.

These conditions are forcing many of us to sleep outside where we are even further victimized.

Please have mercy upon us and provide New Life Evangelistic Center with a building where they can provide many more services than we presently have, at no cost to taxpayers.

Sincerely yours,
